PHP

Webpack

Gulp

Magento

Laravel

Symfony

## PROFILE

I'm creative. I create websites in their entirety : design, development, deployment. So, we can say I'm a full stack developer. I love challenges. I'm a real passionate. I'm 100% self-taught, I'm interested by the back-end web development since I was 14. Today, I prefer the front-end development because it's more sophisticated. I'm still learning new technologies to stay up to date and improve my knowledge.

## EMPLOYMENT HISTORY

### Front-end developer, SeLogger

Paris

Dec 2018 - Present

In a team of 8 persons, following agile methodologies, I work on different front-end applications.

There are many pages of seloger.com website, the website lacoteimmo.com, and others... My main missions are : develop new features, migrate some big VueJs projects to React, and enhance the code quality : Test driven development (jest, enzyme...), functional tests (cucumberJs). Only one goal : improve the continuous integration to make production deployment faster.

**Technologies** : VueJS, React, Jest, Enzyme, Cucumber, Html/Css, Sass

### Web developer - CTO, Prest'open

Paris regions

Sep 2017 - Dec 2017

I tried to create this company with an associate, but we stoped the project for personal reasons. I was in charge of all the technical part. I created visit cards, logos, website, etc. I've deployed the website on AWS, with Elastic Beanstalk, ElasticSearch service, etc... The website was not completely finished but, we were on the end. I developed this website for students. Students could advice the others, leaving comments on their school. It look like tripadvisor, but for schools.

**Technologies** : Symfony, Javascript ES6, ElasticSearch, AWS, Adobe suite...

### Magento web developer, TFI - Téléshopping

Paris

Aug 2015 - Nov 2018

In the subsidiary of the TFI group, TÉLÉSHOPPING, I worked on a big e-commerce website. I was in an agile team and we developed new features and improve the quality of this Magento application. You can visit the website at : [www.teleshopping.fr](http://www.teleshopping.fr)

I used the following technologies :

- HTML/Sass, Php, Javascript & Typescript MySql for the website
- Talend Open Studio to feed the website (add new products, categories...)
- Lumen for RESTFUL applications
- Adobe Photoshop & Illustrator

### Web developer, Nodevo

Chantilly (60)

Jul 2015 – Apr 2019

Nodevo is a web agency with some big customers : TFI, Mairie de Paris, ARTE, DIOR...

I mainly work for TFI Téléshopping. But sometimes, I could work for other customers like ARTE on front-end projects.

I worked on this website : <http://arte-magazine.arte.tv>

**Technologies** : Javascript ES6, HTML/CSS, PHP, CMS

### Symfony Web developer, Mentalworks

Compiègne (60)

Jan 2015 – Feb 2015

In a team of 3 developers, my mission was to create an internal CMS reusable for many customers. That was a major project for the company. I created a web media manager which look like the MEGA\* file explorer

**Technologies** : Symfony, AngularJS, JQuery

\*<http://mega.co.nz>

### Web developer, Mentalworks

Compiègne (60)

Jun 2014 – Aug 2014

I worked on a Silex website for an association. I created a Back-office, an intranet and an extranet.

You can visit the website at : [businesspme.net](http://businesspme.net)

**Technologies** : Silex, HTML/CSS, Javascript, jQuery

## EDUCATION

---

### Conservatoire National des Arts et Métiers, Bachelor's degree

Sep 2017 – Jul 2018

Software engineering, mobile development

### Lycée Saint-Vincent, Two-year technical degree
